HSBC India Export Opportunities Fund

(An open ended equity scheme following export theme)

Exports to grow at ~15% CAGR over FY24-30

- The Indian government has set an ambitious target to achieve \$2tn exports by 2030 implying exports share to increase to ~29%. The government expects exports to grow at ~15% CAGR over FY24-30, with services likely to grow faster than manufacturing. This will aid India to increase its share in world manufacturing from less than 3% in 2023 to its ambition of 5% in 2030 and 10% in 2047.

HSBC India Export Opportunities Fund

- Aims to capture the growth in exports. The Scheme intends to invest predominantly in Equities and Equity Related Securities of companies (80%-100%) from the sectors/industry having exports revenue more than 20% from outside India. Further to achieve diversification, the Scheme may invest up to 20% of the assets in Companies of other equity and equity related securities.

Investment focus[^]

HSBC India Export Opportunities Fund

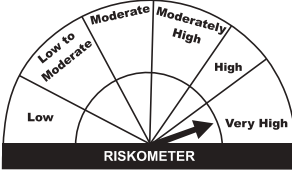

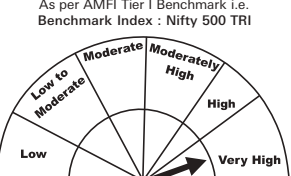

- The aim of the scheme is to generate long-term capital growth from an actively managed portfolio of equity related securities of companies engaged in or expected to benefit from export of goods or services.
- The Scheme intends to invest predominantly in Equities and Equity Related Securities of companies from the sectors/industry having exports with revenue more than 20% from outside India which interalia include:

The fund will take exposure to companies that are likely to involve themselves in the following activities:

- Export goods manufactured in India that have the potential to increase employment
- Benefit from government's policy and reforms towards exports as a sector
- Leverages India's cost benefit arbitrage in services, ease of doing business and highly skilled talent pool
- Assist in promoting inbound tourism or providing cost-effective world-class healthcare facilities
